

Popular for hundreds of years, Hand Scraped hardwood has a distinct sculpted look and old world feel. Not to be confused with machine scraped hardwood that has a repetitious pattern, each board of Vintage's hardwood flooring is scraped and crafted by hand, and then stamped by the craftsmen, making each board unique. Hand Scraped floors tend to be more low maintenance compared to a smooth finish and help hide every day wear. These floors are contoured to accentuate the natural beauty and character of each species.
