

GLOSS AND TEXTURE FINISHES

Vintage Hardwood Flooring offers an expansive range of finishes to personalize your hardwood floor. For textures, Vintage offers traditional Smooth hardwood floors, authentic Hand Scraped, Wire Brushed as well as our proprietary Etched floors. Gloss options include Semi-gloss, Pearl and UV Oil.

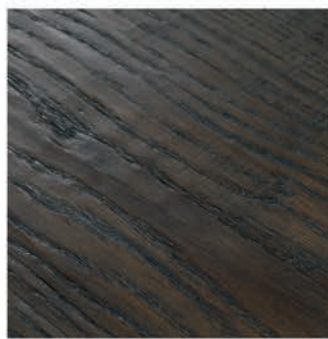

TEXTURE

SMOOTH

Smooth floors have a classic elegance that naturally lends itself to many species. Available in many species, grades, widths and colors, the possibilities are endless.

HAND SCRAPED

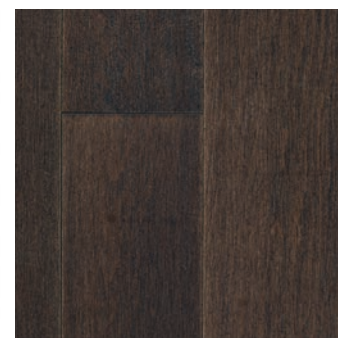

Every board is one-of-kind board, scraped by hand, for a floor completely unique.

WIRE BRUSHED

Wire Brushed hardwood brings definition and highlights the natural richness of each species and grain pattern.

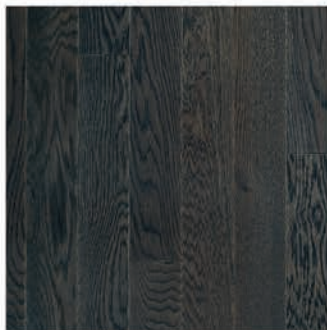

ETCHED

This one-of-kind etching process, similar to wire brushing. Provides some durability to minimally grained species like Maple and softer species like Black Walnut.

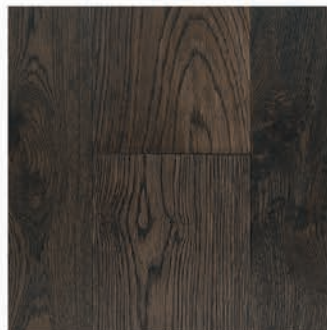

GLOSS

SEMI-GLOSS

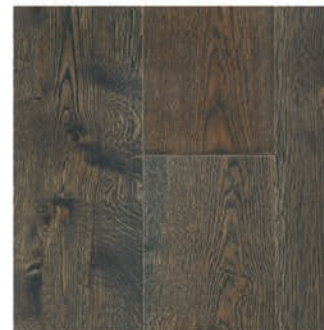

Traditional semi-gloss finish is the most reflective finish and is only offered on smooth surfaces. This gloss tends to be more formal.

PEARL (LOW GLOSS)

A modern low gloss finish that helps to hide everyday wear and tear such as scratches and dents.

UV OIL (ULTRA MATTE)

The lowest gloss level is excellent for high traffic areas. UV Urethane Oil (synthetic Urethane oil) products Vintage's UV Urethane Oil finish uses ground breaking technology to provide a look that mimics oxidative penetrating oil, yet offers some attributes of a Urethane finish, with some repair characteristics of an oil finish.

GLOSS AND TEXTURE FINISHES

	Structure	Species	Standard Gloss
