# COLLECTIONS

## **VINTAGE HARDWOOD FLOORING**

is a proud Canadian manufacturer of premium prefinished hardwood flooring. Our Collections are defined by textures and unique features. Combined with several species, grades and widths from 2 1/4" to 8", thousands of options are available to choose from.

### **SMOOTH**

Vintage's Smooth floors are easier to keep clean due to the small micro-v.

### **RIFT & QUARTER SAWN**

Rift Sawn wood has a linear look and the Quarter Sawn wood has an amazing ribbon-like effect and some flecking. These cuts of wood are combined since they compliment each other to create a beautiful, stable floor.

### **WIRE BRUSHED**

Wire brushing removes the softer spring grain of the wood, highlighting the natural richness of each species.

### **CHEVRON**

Chevron shaped boards are all exactly the same size and shape, and produce a classic V-shaped zig zag pattern since the sides meet to a point. With these boards many patterns can be created.

### **SCULPTED**

Sculpted floors are a modern variation of textured surfaces, enhancing depth and detail for a sophisticated look.

### **HERRINGBONE**

Herringbone boards are all the same rectangular size that create the classic geometrical or many other patterns.

### **BLADE**

Blade is a blend of circular saw marks, linear band saw marks and wire brushing and has a look of an old world floor.

SMOOTH COLLECTION

## WOOD SAWING METHODS

### PLAIN SAWN

Plain sawn cutting provides traditional wide grain patterns in the wood. This is the most common cut of wood for hardwood flooring.

### RIFT & QUARTER SAWN

— RIFT SAWN

— QUARTER SAWN

Rift and Quarter sawn lumber is produced by cutting the log in a specific way. This form of cutting produces a very clean, straight grained contemporary look and highlights the medullary rays.
