ARTISTRY IN WOOD

COLLECTIONS

WHITE OAK Character Wire Brushed Canvas UVF

SMOOTH

Vintage's Smooth floors are easier to keep clean due to the smallest micro v bevel in the industry.

BLADE

Blade is a blend of circular saw marks, linear band saw marks and wire brushing and has a look of an old world floor.

WIRE BRUSHED

Wire brushing removes the softer spring grain of the wood, highlighting the natural richness of each species.

RIFT & QUARTER SAWN

Rift Sawn wood has a linear look and the Quarter Sawn wood has an amazing ribbon-like effect and some flecking. These cuts of wood are combined since they compliment each other to create a beautiful, stable floor.

SCULPTED

Sculpted floors are a modern variation of hand scraped flooring by adding depth and detail.

CHEVRON

Chevron shaped boards are all exactly the same size and shape, and produce a classic V-shaped zig zag pattern since the sides meet to a point. With these boards many patterns can be created.

HAND SCRAPED

Each board of Vintage's Hand Scraped hardwood flooring is unique, scraped and crafted by hand.

HERRINGBONE

Herringbone boards are all the same rectangular size that create the classic geometrical or many other patterns.

SMOOTH COLLECTION

CLASSIC

Smooth floors have a classic elegance that naturally lends itself to many species. Available in various species, grades, widths and colors, the possibilities are endless.

WOOD SAWING METHODS

PLAIN SAWN

Plain sawn cutting provides traditional wide grain patterns in the wood. This is the most common cut of wood for hardwood flooring.

RIFT & QUARTER SAWN

— RIFT SAWN

— QUARTER SAWN

Rift and Quarter sawn lumber is produced by cutting the log in a specific way. This form of cutting produces a very clean, straight grained contemporary look and highlights the medullary rays.
