# Hand Scraped

C O L L E C T I O N

*Hand scraped hardwood has a distinct look and old world feel that goes back hundreds of years. Each board of Vintage's Hand Scraped hardwood flooring is unique, scraped and crafted by hand then stamped on the back by the craftsman. Hand scraped floors tend to require less maintenance than smooth finish floors and help hide everyday wear. They are contoured to accentuate the natural beauty and character of each species.*

# Wire Brushed

## C O L L E C T I O N

*Wire Brushed floors are another unique and beautiful option for a textured floor. During manufacturing, these floors go through a rotating wire brush that removes the sapwood or softer spring grain of the wood, highlighting the natural richness of each species. These floors tend to hide dents and scratches extremely well and everyday wear is blended in. Wire brushing is very conducive to achieving 2 tone floors, giving you a European style and look.*

*Smooth floors have a classic elegance  
that naturally lends itself to many species.  
Available in various species, grades, widths  
and colors, the possibilities are endless.*

# Fumed

## C O L L E C T I O N

*A beautiful, stable and unique floor which looks a lot like Black Walnut, is created when White Oak goes through a fuming process and brings out the natural tannins of the wood. This process allows the color to penetrate throughout the lamella, therefore, scratches and dents blend in more. Some of Vintage's products such as Excalibur and Spartacus are then stained, creating amazing tones of gray and caramel.*
