ENVIRONMENTAL & LEED CONTRIBUTION SHEET

SOLID WOOD 3/4"

LEED® V4 Requirements for Building Design + Construction (BD+C)

New Construction, Core and Shell, Schools, Retail, Data Centers, Warehouse and Distribution Centers, Hospitality and Healthcare.

LEED® V4 Requirements for Interior Design + Construction (ID+C)

Commercial Interiors, Retail and Hospitality.

MATERIALS AND RESOURCES

MR – Building Product Disclosure and Optimization – Sourcing of raw materials

Option 1: Material ingredients reporting (1 point)

The product contributes to this credit due to the availability of a Health Product Declaration® and is valued as 1 whole product out of the 20 needed for the purposes of credit achievement calculation.

Product Contributions

Contributes to the credit

HPD® version 2.3

INDOOR ENVIRONMENTAL QUALITY

EQ – Low-Emitting Materials

Option 1: Product category calculation (1–3 points)

The number of points depends on the LEED® rating system chosen and the number of compliant categories.

For the Flooring category, 100% of flooring must meet the general emissions evaluation.

Product Contributions

Contributes to the credit

The product was tested and determined compliant in accordance with California Department of Public Health (CDPH) Standard Method (CDPH v1.2-2017).

The total number of available points reflects the maximum achievable within each credit category. As noted above, the product does not earn points directly but can contribute toward achieving LEED® credits.
